Forecast for Friday 13 Aug 2021

Weather: Often cloudy with occasional showers. Showers mostly in the west in the morning but these becoming more widespread and occasionally heavy in the afternoon before easing in the evening. Chance of thunderstorm but these likely to be isolated.

Chance of cloud free mountain/hill tops above 800m: 70%

Visibility: Generally very good with good air clarity. Poor in cloud down to 700 metres in the south of the area which may widespread at first, and locally elsewhere in heavy showers. Best area for cloud free summits will be across Deeside.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Summit gales will lead to slow progress, drenching showers and significant wind chill under cloud cover.

Forecast for Saturday 14 Aug 2021
Weather: Rather cloudy with scattered showers, although these lighter and less frequent than on Friday. Becoming mainly dry by evening.

Maximum wind: Northwesterly gusts to 40 mph, winds easing later in the afternoon

Chance of cloud free mountain/hill tops above 800m: 70%

Visibility: Generally very good with good air clarity. Areas of cloud down to 700 metres at times, especially in the north of the area.

Temperature: **Glens:** Plus 9 rising to 17 Celsius
At 800m: Plus 10 Celsius
Freezing level: Above summits
